

bmcm publishes catalog for PC technology

Date: 12-19-2007 03:32 PM CET

Category: [Industry, Real Estate & Construction](#)

Press release from: [BMC Messsysteme GmbH \(bmcm\)](#)

Maisach/Munich/Germany. Under the title "PC SYSTEMS" BMC Messsysteme GmbH (bmcm) introduces its product series of PC technology which is especially suitable for automotive and industrial use.

An embedded PC is generally understood as a modularly designed, extremely compact PC which is usually "embedded" in other systems. Unlike standard desktop PCs the embedded PC technology is used typically in special, mostly industrial applications. Therefore operation in extreme environment must be possible.

When developing PC technology bmcm puts an emphasis on fulfilling these demands. Energy efficiency and usability for measurement applications in addition play an important role, as BMC Messsysteme GmbH also develops and distributes successfully products of measurement technology since many years.

The newly published product catalog "PC SYSTEMS" illustrates bmcm PC technology in a clear and descriptive manner.

The product range includes complete systems as well as single components. For highest compatibility to other systems numerous interfaces are provided (e.g. USB, LAN, RS232; DIO, VGA, PS2, CAN).

The new generation ePCII of the embedded PC series will be available at bmcm in the first quarter of 2008.

For special requirements bmcm offers OEM solutions on customer demand which are intensively used in the automotive area already now.

To realize measurement applications various PC/104 slot cards are provided to sample analog and digital signals in real-time.

The catalog "PC SYSTEMS" can be ordered for free at bmcm (helpdesk@bmcm.de) or be downloaded as PDF file from the website (--> www.bmcm.de/us/ho-home.html).

In addition, further product brochures ("DATA ACQUISITION", "AMPLIFIERS", "SOFTWARE") as well as a company profile ("PRESENTATION") are provided.

*** About BMC Messsysteme GmbH (bmcm) ***

BMC Messsysteme GmbH was founded in 1994 as an independent corporation with headquarters in Maisach, app. 30 km west of Munich. Until today this autonomy could be kept, so that any affiliation to a business group never existed and is not intended for the future. bmcm is one of the only German companies that completely develops and produces all products in Germany, which means quality "made in Germany" at an excellent price/performance ratio.

BMC Messsysteme GmbH serves two business areas:

* Measuring components and PC measurement technology *

This comprises a wide range of connection systems, measuring amplifiers, data acquisition systems, data loggers and the appropriate software.

www.bmcm.de/us/prgr-products.html

* D2M (Design to Manufacturing) and OEM products *

BMC Messsysteme GmbH develops and produces electronic components according to customer specifications.

www.bmcm.de/us/co-d2m.html

You will receive high-quality products manufactured already since the beginning of 2006 according to the RoHS directive. Of course, the corresponding documentation and CE test is always included.

A German documentation is obligatory for us, as well as an English description to be available to our international customers.
