Press release from: [e-Mobile Software, Inc.](#)

Houston, Texas, USA – Dec, 22 2007 – e-Mobile Software, Inc. today announced "e-Mobile Phone Alert" for BlackBerry devices. e-Mobile Phone Alert provides customized alert services of incoming and missed calls.

"e-Mobile Phone Alert brings intelligence to people's phone. Its intension is to allow people to pick and choose what numbers he/she wants to be alerted so as to avoid constant sales calls and other irrelevant calls." said Wayne J, President of e-Mobile Software.

e-Mobile Phone Alert runs on the latest BlackBerry Pearl, 8800, 8300 Curve devices.

One of the main feature of "e-Mobile Phone Alert" is to allow user to associate different phone numbers with their unique colors, and ringtones. It supports normal/quiet mode. For example, user can set it to quiet mode during meeting, he/she will know who is calling or called by the special color.

A complete list of features can be found at:
