

Waterlogic France & Eurosport: A Winning Combination

Date: 04.04.2008 - 12:28

Category: [Leisure, Entertainment, Miscellaneous](#)

Press release from: [Waterlogic International Ltd.](#)

Over two years ago, Waterlogic France won a tender with Eurosport to place 20 of its WL 3000 Hot, Cold & Sparkling units in Eurosport's Issy Les Moulineaux offices just outside of Paris.

Eurosport Group is Europe's leading sports multimedia platform.

The account has been renewed each year since and Eurosport is more pleased than ever with the exceptional Waterlogic units and service it has and continues to receive from the Waterlogic France team.

"Our choice has been for the WL 3000 Sparkling and it is a great success for all our employees," notes Cécile Brangé of Eurosport. "I really appreciate the serious and the quality of the service provided by Waterlogic France."

The WL 3000 is the premiere product from Waterlogic, a sophisticated point-of-use water dispenser which incorporates advanced multi-filtration technology, In Tank UV and BioCote® protected parts, assuring the highest levels of hygiene and quality.

As one strolls through the French Eurosport offices, Waterlogic products can be seen throughout the location, from the entryway where a unit greets thirsty Eurosport guests to the hallways and break rooms where they are most accessible to provide refreshment to the Eurosport staff. Together Waterlogic and Eurosport are keeping the entire Issy Les Moulineaux team hydrated and healthy so they can better achieve their ultimate goal, to bring the latest sports news and results to a captive and growing Eurosport audience.

Charles Guillot, Sales Manager of Waterlogic France states, "the pace of work at Eurosport is quite rapid, just like the sporting events that it covers, and it's great to see Waterlogic playing its part in keeping the Eurosport team up to task."

About Eurosport - The Eurosport Group is today Europe's leading sports multimedia platform with Eurosport, Eurosport 2, Eurosport's websites, Eurosportnews and Eurosport Mobile. Eurosport, the leading European channel is available in 20 different languages and reaches 112 million homes and 240 million viewers across 59 countries. Eurosport 2, the new generation sports channel, is already transmitted to 25 million households in 11 languages across 43 different countries. Eurosport's 8 websites include four co-branded sites with Yahoo! in the UK, Spain, Germany, and Italy, as well eurosport.com local language sites available in China, Russia, Sweden and France, establishing Eurosport as Europe's n°1 online sports destination with 7 million unique visitors per month across all sites. Eurosportnews provides up-to-date worldwide sports news and is transmitted worldwide. Eurosport Mobile offers Live streaming as well as WAP & I-Mod services providing all the latest sports news and Live results.
