

Sam's Club RFID Compliance Training from epcSolutions

Date: 04.04.2008 - 12:28

Category: [IT, New Media & Software](#)

Press release from: [epcSolutions](#)

Webinar Scheduled for February 15th

Great Falls, VA – epcSolutions is pleased to announce that in response to reseller feedback we are offering training webinars each month to teach how to use various epcSolutions applications. These webinars are offered at no charge and at times may be a counterpart to a specific epcSolutions prior webinar.

We will begin our journey into web based training with RFIDTagManager for Sam's Club. Those who attend will be able to ask questions in real time and will be invited to correspond with the instructors after the event via e-mail.

The webinars will be focused to address topics that are vital to getting the most out of epcSolutions software. Some of the first subjects scheduled include RFIDTagManager for Sam's Club and FixedAssetManager.

The training webinars are available to resellers and end customers. When you register for this class you will be provided with the webinar information for you to log on.

“We heard what our resellers wanted and needed during a recent webinar.” States Kevin Kail, CEO, epcSolutions. “We are looking forward to providing these webinars and continuing to educate and help our reseller partners.”

About epcSolutions, Inc.

epcSolutions, Inc. is the leading provider of RFID compliance software to the Wal*Mart and DoD supplier community. epcSolutions' GS1Net3 application suite implements the GS1 System, a series of standards designed to improve supply chain management. The GS1 System includes: BarCodes - Numbering and bar coding; eCom - EDI (Electronic Data Interchange); Global Data Synchronization Network (GDSN) - data synchronization; EPCglobal - RFID (Radio Frequency Identification). The “Any Asset, One Network” application suite allows users to manage all four asset types found in a typical business: Work in Process, Finished Goods/Inventory, Fixed Assets and People.
