Press release from: [Shuttle Computer Handels GmbH](#)

XPC P2 3500G ensures games run smoothly through its high-grade components and delivers a unique gaming experience

Shuttle Inc., the market leader in the Mini-PC sector and manufacturer of Multi-Form-Factor solutions, in the run-up to CeBIT is now supplying a Mini-PC Complete System specifically suited to gamers with its optimally-tuned configuration.

"The high performance of the specially selected components is particularly striking", explained Tom Seiffert, Head of Marketing & PR at Shuttle Computer Handels GmbH. "Our proven Heatpipe-Cooling System with its automatic rotational control is supported in this Mini-PC through the 'OASIS' chipset cooling which is also based on Heatpipes.

The XPC P2 3500G is based on the aluminium-manufactured XPC Barebone SP35P2 Pro and uses an Intel Core 2 Quad Q6600 processor with four cores. Four Gigabyte DDR2-800 quality memories from takeMS (Model: TMS2GB264C081-805) ensure no waiting times in dual-channel mode. A fast 750 GB Serial-ATAII Samsung hard disk (Model: Spinpoint F DT Series HD753LJ) with 32 MB cache also contains additional memory capacity. It easily accommodates the HD-capable ATI Radeon HD3870 graphics card with 512 MB and also the current DirectX-10 games.

Shuttle provides an integrated fingerprint scanner for those enthusiastic users who use the high system performance for better working and who value the extra security highly. The Mini-PC with its high-quality finish is available now as a bundle package with Wireless-LAN, a DVD burner and a 25-in-1 card reader and pre-installed Windows Vista.

For servicing the Complete System purchaser of the can make use of the 24 month Pick-up-and-Return-Service and a Europe-wide free telephone hotline. Shuttle's recommended price is EUR 1,450 (ex VAT). The configuration of the Complete System can be individually adapted in the Shuttle Systems Configurator.
