

## Plunet integrates Transit

Date: 03-05-2008 08:41 AM CET

Category: [IT, New Media & Software](#)

Press release from: [Plunet](#)

...And who invented it? The Swiss of course. With its integration of the Translation Memory Tool from Transit, Plunet is responding to the growing quality needs of the translation industry. "Like the proverbial Swiss pocket knife, Transit displays cutting-edge performance and exceptional stability, making it an excellent asset in the Plunet BusinessManager system landscape," says Peter Seltsam, Senior Product Manager and CEO at Plunet. Transit statistics are read into the Plunet BusinessManager and linked to service units and prices automatically. Price calculation and invoicing are thus available at the press of a button. The Transit High-End Interface is available with immediate effect as an add-on for all Plunet BusinessManager editions.
