Hybrid Getting Numerous Requests for Test Drives of New LiV(TM) Series of Eco-Friendly Vehicles at 2008 New York Auto Show - March 19-30, 2008

MOORESVILLE, NORTH CAROLINA--(Marketwire - March 10, 2008) - Hybrid Technologies, Inc. (OTCBB: HYBR) ([hybridtechnologies.com](http://hybridtechnologies.com)), emerging leaders in the development and marketing of lithium-powered products worldwide, is already receiving requests from major industry publications and national newspapers to reserve a seat in their newest LiV(TM) series vehicles for test drives during the 2008 New York International Auto Show.

Making its debut in New York, is the perfect city car, Hybrid's LiV(TM) WISE which features the latest technology for a compatible, emission-free compact car with a driving range up to 120 miles - ideal for a busy city dweller.

Also included in the exciting line up is the first public appearance of the innovative, military LiV(TM) REAPER equipped with an electronic shifting differential. The show model will be fully loaded and armed with a 50-calibre gun and grenade launcher. Hybrid's secret weapon is capable of speeds to 85+ mph and driving a range of 185+ miles and will definitely be a prominent highlight at the show.

The LiV(TM) BULLDOG accommodates 5-passengers with tilt steering and a 3-position winch capable of heavy rear loading. The 40 mph CVT transmission and constant on-board 110V AC battery offers a unique performance feature.

The new LiV(TM) RYDER is a custom-built lithium "all electric" chopper completely built in-house at Hybrid Technologies. It features a monster 300 rear tire for the ultimate riding experience.

With completion of Hybrid's proprietary designed battery-management systems (BMS), all of the new LiV(TM) Series vehicles featured at the 2008 Auto Show are now ready for market.
