AVS-HR04 Quad Signal Booster

March 14, 2008 - San Diego, CA, March 14, 2008 Audio Video Supply, Inc, a San Diego distributor first in system integration, has introduced the new AVS HR04.

The AVS-HR04 Quad Signal Booster accepts input from PC(VGA or UXGA), Mac, or Workstation. High-speed amplifiers allow the signal to travel over a lengthy distance.

Four individual, buffered output channels are capable of high-resolution computer signal driving in RGSB, RGSB, RGBHV formats. The RGB Channel can be used to output either standard-definition TV or HDTV(Composite, Y/C, YUV, RGB).

The versatility of inputs and outputs allows the Quad Signal Booster to be utilized within many different technological setups. Operating on bandwidths greater than 450MHz, the compact design of the AVS-HR04 offers a metal enclosure and an internal universal power supply.

The AVS-HR04 Quad Signal Booster is now available to order. For additional information, please refer to our product page or email us at sales@avsupply.com. To order, please call 858-565-1101. Audio Video Supply, Inc. is located at 4575 Ruffner Street, San Diego, California, 92111. On the web, www.avsupply.com
