Press release from: [epcSolutions](#)

Vendor chooses solution to meet Sam's Club RFID Tagging Requirement. See Live Demo at RFID Journal Live in Booth 825

Great Falls, VA –SVG Distribution, distributor of videogame entertainment products and a leader in the world's interactive entertainment software industry has chosen epcSolutions RFIDTagManager for Sam's Club to help meet the current RFID pallet tagging requirement from Sam's Club.

SVG Distribution needed a solution to meet Sam's Club compliance requirements for RFID tagging for full pallet, single SKU shipments to Desoto, Texas. SVG Distribution needed a software product that was targeted for and easy implementation of an RFID pallet tagging solution.

RFIDTagManager for Sam's Club, built on epcSolutions' SensorOS, gives end users the ability to meet the current Sam's Club RFID requirements with a simple out of the box solution requiring no additional software. RFIDTagManager for Sam's Club includes a full SQL database, EPCIS and connectivity to all the RFID hardware. RFIDTagManager for Sam's Club is easily integrated with existing ERP and other back end systems such as Oracle, SAP, JD Edwards and others.

"SVG Distribution and epcSolutions teamed together to implement an RFID compliance application for Sam's Club in less than a day." States Amjad Hussain, Handleman Company. "epcSolutions has demonstrated a complete and thorough knowledge of RFID, and we are very happy to have been able to partner on this successful implementation."

"This is a perfect example of the epcSolutions business model, provide easy to implement, low cost, scaleable, standards based Supply Chain Solutions, and delivered quickly and professionally." states Kevin Kail, CEO, epcSolutions.

See a live demonstration of RFIDTagManager for Sam's Club at RFID Journal Live in booth 825.
