epcSolutions RFIDTagManager v 3.7 now available.

Great Falls, VA - epcSolutions, Inc. is excited to announce the release of version 3.7 of RFIDTagManager.

RFIDTagManager v 3.7 includes many upgrades and a few new features. One of the most requested updates is the management of enterprise ID's.

RFIDTagManager V.3.7 includes the following features and functions:

- Simple setup and use of RFID fixed readers, handheld readers and printers
- Compliance with major retailers' and DoD programs including pre-built tag and label templates and specific business rules
- Label library has been expanded to include 4x2 case and pallet labels for Sam's Club, Wal*Mart and DoD
- Association of cases to pallets and ability to accommodate "build to ship" and "build to stock" scenarios
- Verification of RFID label correctness and completion
- Full SQL database that facilitates integration of RFID tag data with ERP, WMS and other in-house enterprise systems
- Enterprise ID management
- Updated Mobile RFIDTagManager program
- Improved shipment management and import
- Updated WAWF changes to the current WAWF changes

RFIDTagManager supports all major RFID printers including: Zebra, Printronix, Datamax, Monarch, Sato and Intermec. We support all major fixed readers including: Alien, Omron, Symbol, Intermec and Thing Magic. RFIDTagManager also supports the Symbol, PSC, Psion Teknologik and Intermec handheld readers.
