Press release from: [Net Business International](#)

Merchant account specialist. Online credit card processing and merchant accounts at low cost.

Do you accept credit cards? Accepting credit cards with a merchant account can increase your sales potential by 75 million customers. Credit Card Processing reports by the "Nilson Report" in August 2004 found that over 90% of all online transactions are done via credit cards or debit cards. You can apply for a FREE Merchant Account Today!

### Free Merchant Account

Credit Card Processing with a free merchant account for internet credit card processing allows you to accept credit cards on the internet via a shopping cart or online virtual terminal. Your Internet credit card processing can be done 100% online.

### Internet Payment Gateway

We use the Fastcharge internet payment gateway which includes free recurring billing, a free secure shopping cart, free fraud screening and internet check processing and credit card processing.

### Free Recurring Billing

The Fast Charge Secure Payment Gateway offers a robust yet easy to use Free Recurring Billing Electronic Billing & Invoicing Software system that can suit the needs of your business.

### Process Online Checks

The Fast Charge Payment Gateway automatically includes a FREE online checks option with each gateway license. This is a perfect option for donations and rentals etc..

### Free Shopping Cart Software

We offer a hosted free shopping cart solution that can be integrated into an existing web site. This option is for merchants who do not have their own shopping cart.

### Instant Merchant Accounts

There are many pitfalls when applying for an instant merchant account. Many merchant service providers offer instant merchant accounts that are place holders for the real merchant account with no real approval.

### Wireless Processing Solutions

Our mobile solutions include access to all major credit and debit card networks and telephone processing for mobile or seasonal merchants. We also offer touch tone cell phone processing. We offer cell phone credit card processing!

### Testimonials

"I have been running a one-person business online since 1994, but until I threw out my swipe machine and switched to Electronic Transfer the cost of accepting charges was always too high. Even if I was on vacation or accepted mostly checks, my charge card fees were always over \$50 EVERY month.

Now with Electronic Transfer I pay only a modest fee each month for retaining access to their services. I'm money ahead and my clients get an automatic immediate email receipt letting them know their charge has gone through.

This is how to do business online!"
