

KaDonk announces the new LiveProject Project Collaboration "Free Basic Plan"

Date: 05-20-2008 09:41 AM CET

Category: [IT, New Media & Software](#)

Press release from: [KaDonk](#)

KaDonk, a member of Microsoft's Partner program, now offers a "Free Basic Plan" for its premier application LiveProject Project Collaboration. With the Free Basic Plan, two users can View, Share and Collaborate on Microsoft Project Plans at no cost. The Free Basic Plan has no expiration date and all features are enabled. Additional licenses can be purchased for \$9.99 per user per month.

LiveProject Project Collaboration is a stand-alone desktop application for viewing, collaborating and sharing Microsoft Project® files (.mpp). Designed for ease-of-use, LiveProject can get you started on collaboration in less than 10 minutes. New users will have a minimum learning curve and managers will find unique value in collaborating on project plans that their teams can view and understand at a glance. LiveProject Project Collaboration is installed with customers worldwide in hundreds of countries, and have been downloaded more than 50,000 times.

"With this offer, we believe we have opened the opportunity for everyone to collaborate on Microsoft Project plans," Anders Heie, founder of KaDonk said. "It is now possible to sign up for continuous collaboration and try LiveProject with all its features enabled. Additional users can be added or removed when needed, so this offer is completely risk-free."

For companies that require large-scale collaboration, KaDonk will not charge for additional users for the first month of this offer. Invite your entire team. If you are not satisfied, cancel your account within 30 days at no charge.

"By eliminating all risk factors from the decision, we enable companies to try LiveProject on their own terms," Heie said. "Our new monthly-payment option allows customers to pay as they go, and only pay for the licenses they actually use. Adding and removing licenses can be done from our Web site. Any changes are reflected on the following month's payment record. And with recurring billing, everything is automated."

To try LiveProject's innovative collaboration features, sign up at www.kadonk.com for continuous collaboration with the two-license Free Basic Plan.
