

## Unique and romantic gift ideas for Valentine's Day: offer a piece of eternity with myphotobook.co.uk

Date: 02-08-2006 06:02 PM CET

Category: [Fashion, Lifestyle, Trends](#)

Press release from: [myphotobook](#)

Each year, men and women all over the world declare their love with flowers which, unfortunately, soon end up in the dustbin. Only very few presents will be remembered and cherished in the long run. If you wish to avoid flowers this time and opt for something out-of-the-ordinary, then have a look at our webpage: [www.myphotobook.co.uk](http://www.myphotobook.co.uk).

“www.myphotobook.co.uk enables you to design a high-quality photo album with your most beautiful digital pictures for free. Moreover, we have recently started offering a new service: printing your most significant instants on canvas. Our canvas is printed with pin sharp definition and stretched on genuine artists' wood bars. – it is a very special present! The days when our digital photos used to accumulate on our hard drives are now past and gone” says David Diallo, general manager of myphotobook.

Not only does [www.myphotobook.co.uk](http://www.myphotobook.co.uk) print your favourite picture on canvas, but you are also free to pick out your own visual, cut out unwanted parts and determine its size.

The same freedom applies to the design of the aforementioned photobooks. The layout of photos and text on each page can be individually chosen. Once the colours and the type of binding have been selected, an order can be placed in a few clicks.

Both book and canvas are delivered to your door in a few days.

Be it book or canvas, myphotobook embodies the idea of gift – personal, valuable and unique.

Special offer for Valentine's Day:

Until February 14th, use our Valentine's coupon by simply entering the code val146 as you order.
