

New VAG UseCAD® 6.0

Date: 05-26-2008 12:53 PM CET

Category: [Industry, Real Estate & Construction](#)

Press release from: [VAG-Armaturen GmbH](#)

Agency: **VAG-Armaturen GmbH**

UseCAD® 6.0

The new, sixth version of VAG UseCAD® is now available, just in time for IFAT. A total of five components were added to the previous version 5.0 that will assist demanding VAG customers in planning projects as well as in searching for specific product information about valves for water and sewage management.

An overview of the new program components:

- 3D images
- VAG screen saver
- Sound volume calculation for plunger valves
- Lay-out program for air and venting valves
- BAIO® planning program in English

In addition to the new components, you will also find all previous content on the DVD such as the current VAG product catalogue including matching DXF drawings, tendering texts and technical documentation as well as the lay-out program for control valves, a symbol and drawing database for AutoCAD and even an Expert's Dictionary for the line of valves.

As free offline help VAG UseCAD® 6.0 mainly assists planning and engineering firms in working with VAG products. All programs can be run either directly from the DVD or by local installation on your PC.
