

SPARKLE Introduces Breakthrough Graphics Cards Products at Computex 2008

Date: 06-04-2008 01:23 PM CET

Category: [IT, New Media & Software](#)

Press release from: [SPARKLE](#)

SPARKLE Computer Co., Ltd., a professional VGA card manufacturer and supplier, today unveil a line-up of breakthrough graphics cards products for the consumer markets, including new graphics cards using NVIDIA latest GPUs. SPARKLE outlines the Company's vision for the DX10 gaming era and emphasizes strategic relationships with 3D industry key player-NVIDIA. Computex 2008, one of the world's largest IT exhibitions, will be held from June 3 -June 7.

SPARKLE will host booths in Taipei World Trade center Nangang Exhibition Hall

L1211A~L1213A. SPARKLE will showcase its latest graphic products including Calibre series and SPARKLE series GeForce 8 and GeForce 9 Graphics Cards for all markets from entry-level to high-levels . All friends from media, retailer and user group will be welcomed by SPARKLE. SPARKLE ensures all products will be neatly and pleasantly displayed for optimal viewing.

The SPARKLE Graphics Cards products showed at Computex 2008 will enhance the DX10 gaming experience of a variety of users, including entry-level users, mainstream users and high-end users. These Graphics Cards, including:

*** SPARKLE GeForce 9800 GX2 1GB Graphics Card**

The SPARKLE GeForce 9800 GX2 1GB Graphics Card extends the awardwinning GeForce 9 Series product line by using NVIDIA latest GeForce 9800 GX2 architecture, which have two graphics chips inside. It's the world's fastest graphics processing weapon on the planet for today's DirectX 10 gamers.

*** SPARKLE GeForce 9800 GTX Graphics Card**

The fastest DX10 Graphics Card with single graphics chip. With unbeatable 512MB high capacity video memory and exclusively designed cooling fan. It can bring amazing visual experience to enthusiasts in the next-generation windows games.

*** SPARKLE GeForce 8800 GT 1GB Graphics Card**

The SPARKLE GeForce 8800 GT 1GB Graphics Card extends the award winning GeForce 8000 GT Series product line by using incredible large 1GB video memory, which satisfies the rigorous demand for bandwidth from latest DX10 games. It's the world's fastest graphics processing weapon on the mainstream market for today's DirectX 10 gamers.

*** SPARKLE GeForce 9600 GT 1GB Graphics Card**

The fastest mainstream DX10 Graphics Card below USD \$150 market price. With unbeatable 1GB high capacity video memory and exclusively designed cooling fan. It can bring amazing visual experience on the next-generation windows games.

*** Calibre P980X GeForce 9800 GTX Graphics Card**

The fastest DX10 Graphics Card with single graphics chip. With unbeatable 512MB high capacity video memory and higher speed, exclusively designed for high end hard core gamers with unique designed cooling fan. It can bring amazing visual experience to enthusiasts in the next-generation windows games.

*** Calibre P888+ Graphics Card**

The fastest GeForce 8800GT Graphics Card on mainstream market. With unbeatable 1GB high capacity video memory and higher core speed and video memory speed, it's the best choice for mainstream gamers to get the total DX10 gaming experience . games.

*** Calibre P960/P960G Graphic Card**

The Calibre P960 Graphic Card provides exquisite craftwork and raw DX10 performance for mainstream gamers. SPARKLE

introduces Dual Fly Cooling System for the Calibre P960 Graphics Card to replace NVIDIA reference cooling fans, giving much more dooughty cooling effects.

* Calibre P960/P960G GBOX Graphics Card

The Calibre P960G GBOX Graphics Card combines raw DX10 performance with exquisitely made GBOX (GDP3) which vividly shows graphics cards' live working condition to mainstream gamers.

*DUAL FLY COOLING SYSTEM

This high-efficient Cooling System developed by SPARKLE itself consists of aluminum die-casting thermal base with copper core inside, three high-efficient heat pipes and dual cooling fans with 0.2 mm thin cooling fins. This Cooling System developed by SPARKLE itself can get the most heat exchange area in a limited space, guarantee a highly efficient cooling effect. Besides, the cooling fans of the Dual Fly Cooling System can be adjusted aslant, so not only MOS circuit on the PCB can be cooled efficiently, the whole cooling efficiency can be raised too.

“Computex 2008 is another forum for SPARKLE, the worldwide leader of graphic cards production and provider of DirectX 10 gaming solutions, to showcase the latest DirectX10 graphic cards that will continue to enhance computer gaming experience for users worldwide. “ Said Joe Lo, product director of SPARKLE Computer Co., Ltd. “Computex is always a great success. DX10 gamers around the world have the opportunity to see the cinematic-quality graphics provide by SPARKLE hardware shown at Computex 2008. We will be really happy to see that our booth to be one of the most popular and crowded booths in the hall.”
