

Olympic gold for protel hotel software from Dortmund, Germany

Date: 09-01-2008 06:45 PM CET

Category: [IT, New Media & Software](#)

Press release from: [protel hotelsoftware GmbH](#)

The protel hotel management software won gold for its excellent service in terms of managing the Olympic media village in Beijing: for this successful project the protel hotelsoftware GmbH from Dortmund, Germany was honored with two symbolic gold medals.

The XXXIX. Olympic Summer Games ended: Now it's about time for all participants to review the results. For two weeks the world has been on a visit in Beijing. Great effort has been devoted by China to receive its guests under a clear blue sky. Overall nice games accompanied by first-rate home grounds and a perfect infrastructure. "The organization deserves Olympic gold," as e.g. Sigi Heinrich suggested who closely watched the games of euro sport.

The protel hotelsoftware GmbH took part as well in the smoothly running procedure of accommodating the international stream of visitors: The Multi Property Management System of protel was applied in order to accommodate guests in the town's hotels or in the Olympic village and put its impressive efficiency to the test.
