Press release from: [Sugarland Eye & Laser Center](#)

Award winning master eye surgeon Dr. Amjad Khokhar, chief surgeon at Sugarland Eye & Laser Center, is making laser vision correction affordable for everybody. Now, LASIK is not only for those with extra cash but also perfect for those seeking to make a wise financial investment. This is made possible through the no-bait pricing and special financing available at Sugarland Eye & Laser Center.

“Having LASIK is a smart financial choice, much like owning a home rather than renting one,” explains chief surgeon Dr. Amjad Khokhar. “Like renting a home, the patient keeps paying for new eyeglasses and contacts but never gets an improvement in your vision. With LASIK, on other hand, the good vision a patient develops is his or hers to keep.” No more money down the drain.

Annual eye care expenses can really add up for those dependant on eyeglasses and contact lenses. There’s the yearly eye examination. Add to that the contact lens fitting. Eyeglasses, prescription sunglasses, contact lenses, and cleaning supplies are also needed. It adds up pretty quick to over a thousand dollars per year.

After a few years, vision is not any better after having more than paid for laser vision correction! For the frugal healthcare consumer in a tough economy, LASIK really starts to make sense.

For a quality LASIK treatment that does not break the bank, avoid bait prices. Many laser vision centers will deceptively advertise very low prices for LASIK. However, the price will be adjusted based on your optical prescription and warranty package. Patients have been baited with a low price but end up paying a lot more.

No-bait pricing, offered by Sugarland Eye & Laser Center, is more straightforward and cost-effective. The price of LASIK is fixed and does not change according to your optical prescription. Sugarland Eye & Laser Center’s affordable pricing includes all pre and post operative care as well as a limited lifetime warranty. Combine that with 0% financing or 60 month financing, the savings become apparent.

To see if you are a candidate for i-LASIK, call 281-240-0478 or go to www.sugarlandeye.com. You will be able to schedule a free consultation at Sugarland Eye & Laser Center during which you will personally meet with Dr. Khokhar.
