Press release from: [Grid-Tools Limited](#)

Oxford, UK - Grid-Tools Limited, a leading vendor of data creation, test data management and information lifecycle management software, is pleased to announce its Platinum Sponsorship of the 2009 STeP-IN SUMMIT: 6th International Software Testing Conference scheduled during January 20-23, 2009 in Bangalore, India. For more information, please visit: [www.grid-tools.com](http://www.grid-tools.com) or call 01865 988542 or USA: 1-866-563-3120

Grid-Tools Managing Director, Huw Price, stated, "We are pleased to announce our involvement in the 2009 SUMMIT. Our organisation has been spending a lot of time in India recently and we are keen to develop our partnerships there much further. It is our hope that we can share the strategy, knowledge and expertise behind our Test Data Suite to all attendees and demonstrate how the methodology behind our software really works."

Grid-Tools commented they are also keen to develop their relationship with the conference organizers, QSIT, planning to collaborate in future initiatives.

2008 STeP-IN SUMMIT Platinum Sponsorship vendors included IBM, HP Software, Aztecsoft and Accenture.

### About QSIT

STeP-IN SUMMITs are the largest testing conferences globally. The STeP-IN SUMMIT is hosted by QSIT – Quality Solutions for Information Technology Pvt. Ltd. – a Bangalore, India based IT Services organization. The 2008 SUMMIT was well appreciated by over 1100 delegates from India and abroad. Key Speakers at the past STeP-IN conferences included Kris Gopalakrishnan (CEO, Infosys Technologies), Ganesh Natarajan (Chairman NASSCOM) D B Inamdhar (IT Minister, Government of Karnataka), Krishnakumar Natarajan (CEO, MindTree Consulting), Zohar Gilad (Sr. VP of Strategy), S N Zindal (Director General, STPI) etc. For more information on the 2009 SUMMIT, please visit [stepinforum.org/STeP-IN\\_SUMMIT\\_2009/index.html](http://stepinforum.org/STeP-IN_SUMMIT_2009/index.html)

### About Grid-Tools Limited

Grid-Tools' software enables organisations with databases to achieve legal compliance, to increase the productivity of its IT staff and to improve the price/performance of its infrastructure. Grid-Tools' solutions apply to test data management and information lifecycle management. The core product, GT-Datamaker, automates the discovery and documentation of database structures: add-on modules generate, anonymise or subset test databases, or archive production databases.

Founded in 2004, Grid-Tools Limited is a private company located in Oxford, United Kingdom. Its development draws on the considerable expertise of its management and development team, gained over an eleven year period. The team has a history of providing products that match customer requirements and provides the fastest ROI in the business.
