Press release from: [Anark Corporation](#)

Boulder, CO, September 22, 2008: Anark Corporation, the leading provider of automated 3D CAD transformation and visualization solutions, today announced it will exhibit at Collaborative Product Development Associates PLM Road Map™ 2008. Anark will demonstrate its easy-to-use automated 3D CAD transformation platform Anark Core™.

At the 2008 PLM Road Map event, Anark will demonstrate the recently released Anark Core Platform version 2.0. This version provides users with expanded conversion, transformation, and automation capabilities to cost-effectively prepare 3D product design data for visualization, simulation, CAE, and supply-chain data-exchange applications. Version 2.0 also provides users with the ability to automate 3D product geometry and structure modification, and then export revised product data into high-precision B-rep and lightweight mesh formats including SolidWorks®, Inventor®, ACIS®, CATIA® V4/V5, Parasolid®, STEP, NX (formerly Unigraphics), IGES, COLLADA, DWF, X3D, and VRML.

“Anark Core has been specifically designed to facilitate cost effective and automated product design preparation and sharing for a wide array of data exchange, collaboration, and visual-simulation applications,” said Stephen Collins, CEO, Anark Corporation. “PLM Road Map 2008 is providing us with a perfect venue to display our solution to a wide array of key industry representative who are focused on the global transformation of product development and the key innovative processes and tools involved.”

Improving the quality and efficiency of product design and development is also the key theme in an upcoming webinar hosted by Dr. Ken Versprille, and Anark Corporation. Join Dr. Ken Versprille, Partner and PLM Research Director for CPD Associates and Scott Collins, Senior Vice President of Product Development for Anark Corporation, to learn how improving the efficiency of product design, analyze, and revise cycles reduces time-to-market and yields competitive advantage for manufacturers that solve these issues. To register for Anark’s LIVE webinar titled “CAD/CAE Model Clean-Up: Reduce Design, Analyze and Revise Cycles,” please visit the webinar event page:

The Anark Core Platform will be on display at the annual CPDA PLM Road Map event in Detroit, MI, Grande Ballroom at the Inn at St. John’s on September 23-24, 2008. To schedule a demonstration prior to the show please contact Anark directly at [solutions@anark.com](mailto:solutions@anark.com).

About Anark: Anark Corporation provides powerful enterprise software and solutions to manufacturing organizations that need to cost-effectively utilize their 3D CAD data and other graphics assets for visualization, simulation, CAE, and supply-chain data exchange.

Anark helps market leaders such as Boeing, Cessna, Pratt & Whitney, Lockheed Martin, and NVIDIA unlock the potential of their 3D data assets to save money, accelerate product development, and to collaborate and communicate more effectively and securely.
