Press release from: [iCallGlobe Ltd.](#)

YouTring.com has recently announced the release of a new tariff plan for calling to India and other Asian countries. An offering of leading VoIP telephony service providers iCallGlobe, the website is an amalgamation of a wide array of features combining social networking and IP telephony. Launched in May this year, the website has been receiving a good response from the global audience primarily due to its varied functionalities. iCallGlobe, in operations since 2003, has tie-ups with over 30 Tier-I VoIP carriers and handles over 20 million minutes of telecommunication every month, hence making YouTring a reliable product in terms of IP telephony.

Sudhi B. Menon, Co-Founder and Business Development Head, YouTring, stated "The global audiences have indeed responded to the product really well. Within a span of just 5 months, we have 25,000 registered accounts, without any online or offline ad campaigns. Now, we are looking forward to establishing the calling feature of YouTring on a bigger scale, hence the new tariff plan." According to company officials, the price cut is part of the company's strategy to attract more users in lieu of the festive season that is approaching, with Ramzan, Eid and Diwali being primary attractions particularly in the Indian sub-continent as well as the Middle East. Commenting on the same, Mr. Menon added, "Youtring is primarily concerned about bringing people closer by the means of the internet. I can positively say that VoIP is the new way to go, and more so with the initial glitches about calling quality being dispelled with the advancement in technology." The rate cuts are in the range of 10-25% for calling to South Asian and middle eastern countries in particular, and would be applicable from September 22nd . Detailed rates are as follows;

Call India @ 3.65 ¢
Call Pakistan @ 8¢
Call Bangladesh @ 3.8¢
Call Saudi Arabia @ 9¢
Call Bahrain @ 3.5¢
Call Oman @ 15¢
Call Qatar @ 14.75¢
Call United Arab Emirates @ 14¢

iCallGlobe Ltd. is a UK based IP telephony services provider. It has tie-ups with over 30 Tier-I VoIP providers across the world, and handles over 20 million minutes per month. The company launched YouTring.com in May this year, as an attempt to consolidate the leading features of entire internet under one roof.
