The calendar:

A country in central-Asia, lain at the foot of the mighty Tien Shan mountain: Kyrgyzstan, one of the probably least visited states of our earth. Untouched nature applies above valleys and mountains, sympathetically waves the capital of Bischkek and nearly fantastically the sea Kyrgyzstan, the Issyk – Kul – lake, in the highland. Movingly the weekly market of Osch appears, tirelessly legendary Silk Road enchants and historically significant appears the caravanserai of Tasch Rabat. This is Kirghizia, a region between breathtaking nature and hearty person. The observer succumbs to the fascination of outstanding photographies that is sedate in scene optimally.

Each leaf of the calendar is printed on both sides, a photography is in the upper area and in the low part of the calendars of the respective month. Additionally, spaces present themselves there for own enrollments sufficiently.
