Note to Editors

Russell Bedford International was established in 1983 by a group of medium-sized independent accounting practices aiming to counter the market dominance of the major multi-national accounting firms.

Russell Bedford is now a closely-connected global network of independent accounting and business consultancy firms in key locations around the world, and is represented by some 200 offices in more than 70 countries in Europe, the Americas, the Middle East, Africa and Asia-Pacific.

All Russell Bedford affiliates are well-established firms offering international business advice and services to local and multinational clients. Most provide a full range of services comprising accounting, auditing, tax advice, general business guidance and financial consulting. In addition, many have special expertise in particular fields, such as international taxation or information technology.

In January 2008 Russell Bedford International was named one of the first 17 full members of the IFAC Forum of Firms after reporting it has implemented a globally coordinated quality assurance programme, committed to the use of International Standards on Auditing (ISAs), and met other specific ethics requirements.
