The Second International Scientific and Business Congress under the theme "Localisation Program on Environmental Business and Supply Base in India" with the International Green Business Fair is scheduled from 3rd to 4th February 2009 in New Delhi, India.

Dr Rajendra Pachauri is the Patron of the Second Congress and will participate in person and as a key speaker.

"We welcome this initiative and strongly support the aims of the Second Congress. Indian business will play a vital role in developing and deploying the technologies that will speed the transition to a low carbon economy", says Mr Phil Woolas MP, Minister for the Environment, UK

The International Scientific and Business Congress on Protecting the Climate - A World Joint Strategy is listed in the House of Commons - Environmental Audit - Sixth Report: § 4 Kyoto instruments / International regulatory body for Carbon Markets.

"The effects of climate change, as well as the necessary means to prevent it, are important themes, which are of great concern to Denmark and the Danish Government. Thus, from a Danish point of view, "The Second International Scientific and Business Congress on Protecting the Climate - A World Joint Strategy", constitutes a very exciting and interesting initiative", says Mr Ole Lønsmann Poulsen, Ambassador, Royal Danish Embassy in India

Lord Browne, (the formerly BP), the Patron of the 1st Congress, characterized this event as, "...very timely and important".

"We are happy to support the cooperation with the EuroAkadem-Academy for European Management in holding the 2nd Congress. We strongly support the contribution that the Congress will generate toward making renewable energy an even more essential component in the fight against climate change", says Mr Bjoern Klusmann, CEO, BEE - German Renewable Energy Federation, Germany

The goal of the Congress is further development and transfer of clean technologies, as well as the creation of a localisation program in India with the emphasis on private business and education with subsequent strategy transfer to other developing countries.

Congress Highlights: Business Climate in India; Environmental Business as a Priority for National Economy; Sources of Finance for the Private Sector; Emerging Opportunities Offered by Climate Change; General Links of Localisation on Business in India.

The Congress agenda includes Panels on Solar, Wind & Geothermal Energy; Automotive Industry, Transport Fuel Sector; Zero-Carbon Buildings; Aviation and Shipping; Education, the Health Risks of Global Warming / Panels highlights: Strategic Alliances; Partnership and Investments; Relationship OEM - Suppliers; Supply Quality Requirements; Indian Co5mponents Supply Base Status; Developing a Successful Long-Term Strategy in the Local Component Industry.
