Press release from: [e-Mobile Software, Inc.](#)

Texas, USA – November, 14 2008 – e-Mobile Software, Inc. today announced an exciting product "e-Mobile Preview" for BlackBerry devices.

Based in Houston, Texas, e-Mobile Software, Inc. is a leading mobile software development company, offering software and solutions for Windows Mobile, BlackBerry and Symbian devices.

"This exciting product brings to BlackBerry users an Outlook email experience. This preview feature saves users a lot of time without having to open email or sms for details. " said Wayne J, President of e-Mobile Software. "It comes very handy for business users who receive a lot of emails, sms" added Wayne.

Features include:

- * Preview incoming email, SMS text message and missed calls.
- * Open email or SMS directly from preview screen.
- * Save time by deleting unwanted emails without opening them.
- * Turn on backlight or buzzer with preview.
