Press release from: [Elite Lifestyle Consulting Inc.](#)

The Prosperity Network's CEO Bill Osterhout enhances his already state-of-the-art, innovative marketing technology due to a massive increase in demand. Continuing to spread his technology worldwide, Osterhout promises a revolution in online opportunity for any business owner.

Revelstoke, BC (PR Web) March 9, 2006 – According to Bill Osterhout, The Prosperity Automated System (PAS) is continuously upgraded to fulfill the needs of business owners and online entrepreneurs alike. A recent growth of 500% has driven the techs at the Prosperity Network to upgrade servers and enhance processes, software and systems. The explosive growth in PAS is a result of increased interest in their “Automated Prospector”, which is an advanced search engine software program.

So what does that mean to entrepreneurs? Well, bottom line, PAS takes the grunt work out of internet sales and marketing. Up until now, the typical results driven entrepreneur spent countless hours seeking quality leads, phoning them numerous times, following up with them and attempting to close the sale. Not to mention the endless pursuit of effective advertising and promotion. The majority of people end up quitting or giving up on their new venture due to the amount of unforeseen obstacles.

PAS is changing all that. The “Automated Prospector” identifies likely prospects directly from the search engines, as well as through extensive offline marketing. The system is designed to weed out the not-so-serious tire kickers and only the pre-qualified buyers remain. At this point, the quality prospects arrive at your website ready to buy your product, whether it is health products or phone plans. In addition, the prospect has the opportunity to buy and resell the system itself and earn \$3000 USD per sale. Therefore, two streams of income can be made utilizing the PAS system. However, you will have to answer questions on your own products, if you have any. If there are any questions concerning the PAS system itself, the highly skilled Team Leaders at PAS will address them on your behalf.

The future is bright with PAS as it is arguably the only company today that offers this degree of automation. With only a handful of associates, this young company is noted to be “The best online investment you will make. Guaranteed.” by Dr. Leiven Van Neste, a top income earner with PAS who resides in Portugal. With an expected 25,000 new associates by the end of 2006, the staff at the Prosperity Network are working around the clock to keep up with the ever increasing volume.

According to Osterhout, the Prosperity Automated System is a global marketing opportunity. Already translated into Spanish and French, it is expected to be in at least ten different languages by the end of 2006. With nearly 8 billion people in the world, it is clear why the Prosperity Network sees the value of spreading its wings across the globe. It is a fact that people all over the world are facing common challenges in their businesses, primarily marketing and prospecting. This is where PAS jumps in, covers those angles and offers a 200% money back guarantee to the business owner if they are unable to double their investment.

With an offer like that, it is clear to see why so many people from all over the world are jumping on the PAS bandwagon

Melissa Dillman is the Marketing Director for Elite Lifestyle Consulting Inc. She currently provides innovative Business Coaching to a growing list of clients worldwide. For more information about the Prosperity Automated System, visit www.HandsFreeIncome.net
