QuesCom, leader on the Fixed Mobile Convergence market, has been awarded first prize of record-breaking growth in the Telecoms & Networking category of Deloitte Technology Fast 50 ranking in France.

With a growth of 1800% over 5 years, QuesCom was awarded the 1st prize of Deloitte France Technology Fast 50 ranking whose 8th edition was held by Deloitte on December the 1st 2008 in Paris.

QuesCom is also ranked in Top 100 on the Deloitte Technology Fast 500 EMEA 2008, a ranking of the 500 fastest growing technology companies in EMEA. "Attracting enough customers to attain such fast growth over three years makes a strong statement about the quality of a company's product and its leadership," said Karel Bakkes, partner in charge of Deloitte's Technology Fast 500 EMEA program. "QuesCom has shown the right stuff for growth."

Philippe Oros, President at QuesCom, said: "Our will for innovation allows us today to enjoy this exponential growth and to distribute our products over 40 countries in the world. In 2008, we opened two new subsidiaries in Mexico and in South Africa; both markets are key for the ambitious goals we appointed for the upcoming year."

Founded in 1999 by Philippe Oros and headquartered in Sophia Antipolis, France, QuesCom had a turnover of €9.8 million in 2007 and is again forecasting a strong growth in 2008.

With a growth of 1828.25% over 5 years and more than 70 employees worldwide, the company is acknowledged today as a strong leader on the Telecom market.

### Technology Fast 500 EMEA selection and qualifications

The Technology Fast 500 list is compiled from Deloitte's EMEA Technology Fast 50 programs, nominations submitted directly to the Fast 500, and public company database research. To qualify for the Fast 500, entrants must have had 2003 operating revenues of at least €50,000 and 2006 operating revenues of at least €800,000.

Entrants must also be public or private companies headquartered in EMEA and must be a "technology company," defined as a company that owns proprietary technology that contributes to a significant portion of the company's operating revenues; or devotes a significant proportion of revenues to the research and development of technology. Using other companies' technology in a unique way does not qualify.

### About Deloitte

“Deloitte” is the brand under which tens of thousands of dedicated professionals in independent firms throughout the world collaborate to provide audit, consulting, financial advisory, risk management and tax services to selected clients. These firms are members of Deloitte Touche Tohmatsu, a Swiss Verein (“DTT”). Each member firm provides services in a particular geographic area and is subject to the laws and professional regulations of the particular country or countries in which it operates. DTT helps coordinate the activities of the member firms but does not itself provide services to clients. DTT and the member firms are separate and distinct legal entities, which cannot obligate the other entities. DTT and each DTT member firm are only liable for their own acts or omissions, and not those of each other. Each DTT Member Firm is structured differently in accordance with national laws, regulations, customary practice and other factors, and may secure the provision of professional services in their territories through subsidiaries, affiliates and/or other entities.

Deloitte refers to one or more of Deloitte Touche Tohmatsu, a Swiss Verein, and its network of member firms, each of which is a legally separate and independent entity. Please see [www.deloitte.com/about](http://www.deloitte.com/about) for a detailed description of the legal structure of Deloitte Touche Tohmatsu and its Member Firms.
