Press release from: [Whizlabs Software \(P\) Ltd.](#)

Whizlabs Software, a key solution provider in IT Certification Exam Preparation has added better features to its CCNP ( [www.whizlabs.com/cisco/ccnp.html](http://www.whizlabs.com/cisco/ccnp.html) ) 642-801 Exam Simulator by adding better and improved features to help all aspiring candidates.

Offered by Cisco, CCNP 642-801 ( [www.whizlabs.com/cisco/640-801-details.html](http://www.whizlabs.com/cisco/640-801-details.html) ) certification indicates advanced knowledge of networks for big enterprises. It confirms the ability to work in organizations whose networks have 100 to more than 500 nodes. CCNP certification also validates an individual's achievement, so it increases the holder's professional credibility by ensuring high standards of technical expertise.

CCNP certifications ( [www.whizlabs.com/cisco/ccnp.html](http://www.whizlabs.com/cisco/ccnp.html) ) are valid for three years. To recertify, a candidate either needs to pass the 642-891 Composite exam, or pass both the 642-801 BSCI and 642-811 BCMSN exams. A higher level of certification, CCNP has CCNA (Cisco Certified Network Associate) as its prerequisite.

Whizlabs CCNP 642-801 Exam Simulator features include:

- A) Enhanced User-Friendly Graphical User Interface to help navigate smooth practice.
- B) Wider Range of Questions Multiple Choice (Single Response) and Multiple Choice (Multiple Response), Drag and Drop, Fill in the Blanks and Simulation (Router and Switching)
- C) Robust Adaptive Testing to help increase the level of practice.
- D) Enhanced Customization features to help tune the preparation against time, difficulty levels and other such parameters.
- E) Mentors all through the preparation to help resolve queries.
- F) Exhaustive Mock Exams to diagnose strengths & weaknesses.
- G) Comprehensive Reports to assess and gauge progress in each exam objective.
- H) Interactive Quiz to serve as a tool to increase speed and revision for reinforcing the concepts.
- I) Quick Revision Notes in a concise format to serve as reminders of important concepts.
- J) Tips N Tricks to avoid pitfalls while preparing and taking the exam.

Whizlabs CCNP 642-801 Exam ( [www.whizlabs.com/cisco/640-801-details.html](http://www.whizlabs.com/cisco/640-801-details.html) ) Simulator contains 325 questions spread over 5 different mock exams of varying difficulty levels and a quiz of 149 questions. It has been authored by highly experienced and certified professionals, and includes 1 Diagnostic Exam, 3 Practice Exams, and 1 Final Exam. The content and the questions are based on the latest pattern of the actual exam and provide the best-simulated environment. The users also have the option to choose the number of questions, topics, and difficulty level of the questions to create their own customized exam. This enables them to focus the preparation on the specific areas as per their individual requirements.
