

A special part in sensor technology is played by strain gauges, because strain gauge measuring applications demand extended background knowledge. Therefore, BMC Messsysteme GmbH has grouped them in a separate category providing not just strain gauge sensors but also accessories to setup a strain gauge application.

In this connection, the product overview "SENSORS" introducing the available sensors at bmcm has been released. It can be ordered for free (--> helpdesk@bmcm.de) or be downloaded as PDF file from the bmcm website.

With the great choice of sensors BMC Messsysteme GmbH provides not just a good start to solve measurement tasks but also brings problems to an end - with measurement technology from sensor to software.

*** About BMC Messsysteme GmbH (bmcm) ***

BMC Messsysteme GmbH was founded in 1994 as an independent corporation with headquarters in Maisach, app. 30 km west of Munich. bmcm is one of the only German companies that completely develops and produces in Germany. The products of data acquisition and PC technology from BMC Messsysteme GmbH stand for quality "made in Germany". A high value is set on keeping an excellent price/performance ratio. Since establishing a direct distribution in July 2006, customers have been able to profit from the advantage of direct contact to the manufacturer.

BMC Messsysteme GmbH serves the following business areas:

* Measuring components and PC measurement technology *

This comprises a wide range of connection systems, measuring amplifiers, data acquisition cards (internal and external), "ready-for-use" data acquisition systems, data loggers and the appropriate software for visualization, recording and analysis.
www.bmcm.de/us/prgr-products.html

* PC technology *

This area includes embedded PCs developed as complete solutions as well as single PC components often used in the automotive field.
www.bmcm.de/us/prgr-pc-tech.html

* D2M (Design to Manufacturing) and OEM products *

BMC Messsysteme GmbH develops and produces electronic components according to customer specifications.
www.bmcm.de/us/co-d2m.html

You will receive high-quality products manufactured already since the beginning of 2006 according to the RoHS directive. Of course, the corresponding documentation and CE test is always included.

A German documentation is obligatory for us, as well as an English description to be available to our international customers.
