Press release from: [ABAS Software AG](#)

Igualda (Spain) – Meritem, producer for paellas, pizzas, pasta and instant meals will work with abas Business Software (ERP, PPC, MRP, eBusiness) in the future. They are located in the Catalonia town of Igualda, near Barcelona. The ERP implementation is executed by the Spanish partner Abas Business Solutions Ibérica .

The 19 users of Meritem S.A. will work with abas Business Software and optimize their business processes with the ERP solution in the future.

The catering branch of the company based near Barcelona started in 1922. They produce paella and pasta meals. In 1994, came technological advances which lead to an expansion of the product range. Now Pizzas bearing the name “Las CrujiCoques” have been distributed. Meritem’s delicacies supply the market’s demand for healthy and easy-to-prepare meals. Furthermore, Meritem has established an innovative distribution system for the brands Paellador and CrujiCoques which assures high product quality at all times.

Meritem is a sound and continuously growing company. Thanks to their catering experience their client base comprises more than 3.000 customers all over Spain. In the year of 1997, Meritem began their internationalization across Europe. Meritem currently owns more than 180 restaurants in France, Andorra, Italy, Portugal, Denmark, Ireland, England and Germany.

About ABAS Software AG

Founded in 1980, ABAS provides cost-effective ERP and eBusiness solutions to over 2,100 customers and more than 45,000 users worldwide, with solutions offered in 28 languages. ABAS was named number one in customer satisfaction in the 2007, 2005, 2003, and 2002 ERP studies published by the Konradin Group. ABAS ranked first in price/performance ratio, functional fit, stability, ease of use and upgrades. The study shows that the package requires a third less time to implement and a total investment well under the ERP average. The brand name abas Business Software (ERP, PPC, MRP, eBusiness) runs on Linux, Unix and Windows. Approximately 80% of all installations to-day are Linux-based. ABAS is headquartered in Karlsruhe, Germany, and sells its software worldwide through its partner network. For more information visit:
