

## **Cosateq reacts to the positive feedback to its free support offer for SCALE-RT**

Date: 01-20-2009 02:54 PM CET

Category: [Energy & Environment](#)

Press release from: [Cosateq GmbH & Co. KG](#)

The German software specialist is extending its special offer for its product SCALE-RT to 31st of March, 2009. Customers using the trial version of the Linux-based real-time simulation software, SCALE-RT, can therefore avail of free technical support until that date. This allows trial users of SCALE-RT to evaluate this comprehensive software package and be able to contact technical support by email or phone when required.

Free downloads and further information available at [www.scale-rt.com](http://www.scale-rt.com)

### About SCALE-RT

The Linux-based SCALE-RT real-time simulation environment offers a flexible host-target prototyping environment for applications running on a cost-efficient PC-compatible hardware. SCALE-RT is a scalable product based on open-source software, which includes the reliable Linux kernel with real-time Xenomai extension. It supports powerful multi-core processor architectures and a wide variety of I/O hardware.

By integrating seamlessly into simulation tools like Scilab and Scicos®, MATLAB® Simulink® (incl. Stateflow®), SimulationX® oder Dymola. SCALE-RT offers a comprehensive software suite for the development of professional applications. SCALE-RT is extremely flexible, cost-effective, and scalable. There are 3 variations of the product available: classic, concert, and opus.

### About Cosateq

Cosateq is a leading company in the field of simulation and control engineering. Highly qualified engineers in the areas of computer science, IT, electrical and mechanical engineering are involved in developing innovative solutions for reputable companies operating in the aviation, automotive, engineering, and special solution industries. Cosateq's development site is based in Wangen/Allgau (Germany).
