

## Orion's Digital Signage and Test Monitors

Date: 03-05-2009 04:47 PM CET

Category: [Industry, Real Estate & Construction](#)

Press release from: [Audio Video Supply, Inc.](#)

San Diego, CA, February 16, 2009 Audio Video Supply, Inc, a San Diego distributor first Industrial system sources, introduces Orion Images' dynamic line of Digital Signage and Test Monitors.

Orion Images builds Professional grade, FCC Class A Certified LCD CCTV monitors. The Orion CCTV monitors are created with CCTV PCB boards and circuitry - made to operate 24 hours a day, 365 days a year.

The Orion Digital Signage Monitors make the old way of displaying signs a thing of the past. These monitors are a great tool for advertising to a specific audience while allowing your business to change the content and keep it fresh and dynamic. These Digital Signage Monitors (including the 32 RTX and the 42 RTX) have a high contrast ratio of 1000:1 packed into a 1366 x 768 resolution screen. They feature a 176 degree viewing angle with an extremely broad viewing range allowing your business to target a broad audience. This system is perfect for any business that needs to advertise or display a sign.

The Orion Test Monitors are a portable means of measuring for all CCTV installers. With three available models, the TM4, TM5 and TM7, the Orion Test Monitors are perfect for pin pointing problems on the spot, see actual time data displaying performance and configuration during set up. The Orion Test Monitors features a high contrast ratio, a sturdy metal case and a portable lightweight design.

These are only a small sample of Digital Signage Monitors and Test Monitors that Audio Video Supply has to offer. To find out about our other Monitors or to order at low prices, please call 858-565-1101. Audio Video Supply, Inc. is located at 4575 Ruffner Street, San Diego, California, 92111.
