Category: [IT, New Media & Software](#)

Press release from: [Nexcom](#)

Nexcom, World Leaders in the Provision of Mobile Computing Solutions have launched a cost-effective Semi-Rugged Tablet-PC which is designed for indoor and warehouse applications.

The new MRC 2000 is a cost-effective 8.4" fan-less Mobile Tablet Computer which is based on the energy-efficient Intel Atom CPU.

For warehouse and retail applications the MRC 2000 can be equipped with a built-in laser barcode reader/RFID module enabling users to more efficiently track consignments/inventory. Its rugged, IP54 rated design allows the MRC 2000 to withstand a vertical drop of up to 4 feet (120 cm) and with the inclusion of the new docking station; the MRC 2000 is ideal for mounting onto forklift trucks.

Other features of the MRC 2000 include a long lasting battery life that can provide uninterrupted use for 4 – 8 hours, fingerprint recognition and an optional in-built camera.

Offering ruggedized technology at a commercially affordable price, the MRC 2000 is latest addition to Nexcom's range of Mobile Computing Solutions.
