Press release from: [e-Mobile Software, Inc.](#)

Houston, Texas, USA – May 18, 2009 – e-Mobile Software, Inc. today announced an exciting product "e-Mobile Notes" for BlackBerry devices.

Based in Houston, Texas, e-Mobile Software, Inc. is a leading mobile software development company, offers software and solutions for Windows Mobile, BlackBerry and Symbian devices.

"This revolutionary product for the first time brings to BlackBerry users a fresh, yet powerful notes management tool. It allows user to view notes with rich contents and be able to launch web page and make phone calls directly from notes. Just like Outlook notes, color coded notes are available through this application. " said Wayne J, President of e-Mobile Software, Inc. "This product will fill the void of sophisticated notes application for BlackBerry" added Wayne.

e-Mobile Notes supports the following Blackberry devices: Pearl, 8800/Curve and Bold. e-Mobile Notes Storm edition will come later.
