Press release from: [Eco G Painters](#)

San Diego, CA, May 21, 2009 – Specializing in organic paints, San Diego painting contractor, Eco G Painters, has been offering fast, reliable and affordable commercial painting services for their business to business clients for many years.

Eco G Painters recommends Greenguard-certified and LEED qualified paint products for both interior and exterior painting commercial projects to their clients. They believe in these paints so much they've offered up a challenge to use organic paints to each of their customers, and with the number of eco friendly paints and stains on the market, as well as their competitive prices against high VOC (Volatile Organic Compounds) paints, the challenge has been met with enthusiasm.

"We sort of put it out there," says Brando Giron, Owner of Eco G Painters. "In the past we found that a lot of our customers either hadn't heard of organic paints, or had heard of them but their previous San Diego painting contractor hadn't given them the option. Once our clients are given the facts about what high VOC paints do to the environment as well as themselves and their customers, they make the switch. The competitive prices are just the icing on the cake!"

As a professional commercial San Diego painting contractor, they offer a variety of painting programs, including: re-imagining, maintenance work, roll-outs, build-outs, and close-outs. Their highly skilled crew can manage any size job.

Eco G Painters has two offices in Southern California and can be reached at (858) 277-5264 in San Diego, or (877) 277-5220 in Santa Ana, or visit their website at www.ecogpainters.com.
