

Ocimum Biosolutions and Clarmon to Conduct Live Webinar

Date: 26.05.2009 - 13:48

Category: [Health & Medicine](#)

Press release from: [Ocimum Biosolutions](#)

Gaithersburg, Maryland, United States, May 22, 2009: Ocimum Biosolutions and Clarmon have announced the launch of a live webinar on "HOW to reduce compliance costs in Manufacturing and Laboratory environments" on May 28, 2009 and May 29, 2009 at 10 A.M. –11.30 A.M. EDT. The webinar would provide insights on how to:

- Reduce compliance costs for automated systems in manufacturing & laboratory software
- Have simplified document control for quality records or Standard Operating Procedures (SOPs)
- Have improved computer system validation for GxP (regulatory) compliance
- Eliminate the tedious manual and paper based compliance processes while still allowing users to work in a simple and familiar manner
 - Learn more about Linksense™ technology which enables unique content level linking across separate documents ensuring documents are kept up-to-date and providing instant change impact
 - Adopt and reap benefits of an integrated work flow, risk and result management system

Register for the webinar at www.ocimumbio.com/lims2/wp-content/uploads/qavalid_webina...

About Ocimum Biosolutions

Ocimum Biosolutions is a leading integrated genomics company providing comprehensive genomic reference databases, life science lab information management solutions, GLP-compliant microarray services and essential research consumables. Most of the top 25 pharma companies, leading research institutes and emerging biotech companies worldwide have chosen us as their preferred outsourcing partner and utilize our expertise for understanding underlying mechanisms of diseases, discovery and prioritization of gene targets and biomarkers. For more information about Ocimum Biosolutions please visit www.lims.ocimumbio.com.

About Clarmon

Clarmon Corporation provides advanced software solutions for quality and compliance management. The majority of Clarmon's customers are Life Science companies that operate inside highly regulated environments. Using Clarmon's Web and Microsoft Office® based solutions these companies have been able to replace paper and manual systems with a fully electronic, automated environment that reduces the efforts and costs of demonstrating compliance. QValid, Clarmon's validation and compliance management suite, provides a simple method to centrally manage and control documents without requiring users to re-enter information. For more information about Clarmon Corporation please visit www.clarmon.com.
