

## New Telemotive blue PiraT with MOST150

Date: 06-16-2009 02:18 PM CET

Category: [Tourism, Cars, Traffic](#)

Press release from: [Telemotive AG](#)

Stuttgart, 16. Juni 2009 (testing expo, Juni 16-18): To satisfy the increasing requirements, the product range of Telemotive AG is expanded by a blue PiraT MOST150 data logger. The blue PiraT MOST150 logger has a MOST150 interface, 2 CAN interfaces and 4 serial interfaces (RS232/RS422). Telemotive has developed a data logger, which is able to record the control messages and status information of the MOST150-bus as well as the MDP (MOST Data Packets) and MEP (MOST Ethernet Packets) data. All further features like the automotive-suitability, the power management and the synchronous timestamps will be unchanged as well as the possibility of cascading or upgrading via licenses. Data transfer and the configuration of filter functions are accessed conveniently via the software "blue PiraT Client". Despite the minimum product size, the blue PiraT still meets the increasing demands of the market retaining easiest handling. Visit us at our stand in Hall 1, number 1158. We look forward to seeing you. Telemotive AG „we drive your ideas“.

Telemotive AG specialises in the areas of engineering services and product development, including technology areas involving complex networked systems such as LIN, CAN, FlexRay, MOST and Ethernet. The medium-sized company, founded in 2000 by 4 individuals, is active in the automotive industry primarily in the areas of infotainment, entertainment and telematics. Currently more than 250 employees are engaged at Telemotive AG.

Telemotive AG serves a customer base consisting of national and international automotive manufacturers and suppliers. The company's products are represented not only in Europe, but also in the USA, Japan, South Africa, Brazil, and other countries.

We ensure proximity to our customers via our offices in Mühlhausen in Täle, München, Stuttgart/Sindelfingen and Ingolstadt.

In 2008, the company was honored with the award "German's best employers" for its comprehensive introduction programs, its further educational facilities and its career opportunities.
