Press release from: [Simplifile, LC](#)

PROVO, UTAH – June 30, 2009 – Simplifile, the leading provider of electronic recording services, today announced that it has signed an agreement with MyECheck, Inc. (OTCBB: MYEC), the leading provider of online check image services. The agreement will facilitate the integration of the MyECheck Remotely Created Check solution into the Simplifile e-recording service which will allow Simplifile customers to make payments for recording and submission fees using an online check imaging process.

It is anticipated that the integration between Simplifile and MyECheck will be completed by late summer 2009. Once complete, Simplifile customers will have the option to make recording and submission fee payments with virtually any checking account in the United States—including all business accounts.

“We are excited to work with MyECheck and their industry leading online check imaging services,” said Paul Clifford, President of Simplifile. “We believe that the addition of MyECheck’s patented technology not only will allow us to electronically originate secure check transactions and transfer funds but will give our customers the ability to utilize finance accounts not previously available for payments.”

“We are pleased to provide our fully electronic green services to Simplifile,” said Ed Starrs, CEO of MyECheck commented. “The MyECheck solution is ideal for escrow account payments and real estate transactions because of its speed and capability to process any size transaction from any account. The addition of Simplifile is an impressive addition to our rapidly growing portfolio of larger accounts”.

About Simplifile

Simplifile provides innovative, simple, and secure electronic recording services via the Internet. Simplifile’s customers include title companies, banks, attorneys, lien filers, and county and state government jurisdictions. Simplifile electronic recording services accelerate document recording and simplifies document workflow processes that reduces costly overhead associated with traditional submission and recordation methods while improving client service levels.

Simplifile is focused on building the industry’s de facto electronic recording network. As such, Simplifile provides a streamlined and scalable approach to electronic recording tailored to organizations of all shapes and sizes.
