

idt-smartcards.com launched as new purchasing platform for Smartcards & Contactless Cards

Date: 07-13-2009 12:20 PM CET

Category: [IT, New Media & Software](#)

Press release from: [iDTRONIC Electronic Identification GmbH](#)

Agency: **None**

The new website [idt-smartcards.com](#) is dedicated to all contact and contact less Smartcards and is an easy and very price competitive way to purchase Smartcards online.

The range of offered smartcards include classic Contact Chipcards from Atmel and Infineon as well as Contactless Cards with IC technology from NXP, EM, Atmel, TI, ALIEN Technologies and LEGIC.

Additionally you can find on [idt-smartcards.com](#) Hybrid cards with combinations of different Contact- / Contactless Technologies and Java based JCOP Microcontroller cards.

All [idt-smartcards.com](#) products are very competitively priced and are offered with all common Smartcard personalization technologies. [idt-smartcards.com](#) shows prices for 1.000 up to 50.000 pieces and gives to the customers the possibility to choose between different printing technologies, UID number printing, Magstripes and Chip encoding among other personalization options.

The intuitive and easy to use order system allows every interested customer in getting a fast quotation or a direct processing of a full order. For international shipping the user can get an easy overview about shipping options and cost.

[idt-smartcards.com](#) is the perfect purchasing platform for all interested buyers of Smartcards.

For more information about the new purchasing platform for ISO cards mail us or visit our website.

About iDTRONIC Electronic Identification

iDTRONIC GmbH is a leading supplier for professional RFID Readers and RFID Tags / Transponders. iDTRONIC products are available for the passive RFID standards LF 125kHz, HF 13,56MHz and UHF 860–960MHz as well as an active system working on 2,45GHz frequency.

The range of professional RFID Readers include the industrial RFID Readers of the "Bluebox" series, RFID solutions for Mobile Terminals, RFID OEM Readers / Antennas and attractive RFID USB Readers.
