Press release from: [Elite Lifestyle Consulting Inc.](#)

The CEO and founder of The Prosperity Network, Bill Osterhout, is honoured that his 12 year old debt free company, The Prosperity Network, will be featured on the Discovery Channel and CNN Headline News. The Prosperity Automated System will be featured as part of the Models of Excellence series in a segment named “Innovative Home-Based Business Solutions”.

Revelstoke, BC - May 13,2006 – The Prosperity Network, based in Citrus Heights, CA., offers an online home-based business that promises no selling, prospecting, marketing or closing. The company provides a highly skilled sales team to cover all those angles for its business owners, therefore, eliminating the failure points common in most online business opportunities. Bill Osterhout implemented a 100% Money Back Guarantee plus \$500 to every member that joins PAS, and to date, not one member has needed the guarantee. Impressed by the ever increasing success of this company, PTGTV’s “Pulse On America” chose to feature Bill Osterhout and The Prosperity Automated System for it’s innovative and educational television series.

So, who is Bill Osterhout? Successful in several online income opportunities, Osterhout found that although he had the skills and motivation to succeed, the vast majority of others venturing into the online business world had failed. According to Osterhout, the point of failure for most people was prospecting and marketing. Finding the time, will and determination to speak with massive amounts of strangers to find the few “qualified” buyers drives many people to failure. Correctly marketing a product or service to ensure it is received by the masses is another issue that leads many marketers into debt and frustration.

As an outgrowth of over 10 years of online marketing experience with income opportunities, PAS was launched in October of 2003, with a simple, but very powerful purpose: To eliminate each and every failure point. Therefore, Osterhout designed the automated system to do all of the prospecting, selling and advertising for the PAS business owner. In the world of online income opportunities, this system has been praised by many business owners who have struggled with these obstacles. Tammy Visscher of I.M.A.G.I.N.E Consulting Inc. calls PAS “An absolutely ingenious system that virtually anyone can succeed at, with or without any business marketing experience. This is definitely the best business opportunity out there – hands down.”

How is this possible? Well, using sophisticated, state-of-the-art search engine technology. PAS’s search engine powered “Automated Prospector” finds quality prospects from search engine keywords who are looking for a home based business or an online marketing solution for their current business. The Automated System will piggyback the business you currently have, so you can either choose to have the PAS market your primary business or you can choose to market your PAS business as your primary business.

The Automated System then kicks in and does all the sorting (triple surveyed double opt-ins) through these prospects and eliminates 80% of the curious, not so serious “tire kickers.” The PAS owner’s Team Leader will make all of the necessary follow up calls and arrange for the completion of the process all on behalf of the PAS owner. All sales are made for the PAS owners, and in the meantime, owners just sit back, relax and check their email inbox. The PAS Team Leaders will notify the PAS owners when their \$3000 profit is being processed.

The Prosperity Automated System will be featured on “Pulse on America” within the next two months. To find out when it will air, visit [www.ptgtv.com](http://www.ptgtv.com).
