

## Ziami starts with a new business opportunity in the fashion world

Date: 05-16-2006 02:25 PM CET

Category: [Fashion, Lifestyle, Trends](#)

Press release from: [Ziami Inc.](#)

Ziami offers high quality custom-made tailored shirts for only \$29,95 and suite \$ 99,95. Ziami is an international fashion company that produces hand-tailored shirts. With the help of efficient handwork production methods and the elimination of the middleman, it's possible to deliver first class quality for a good and affordable price.

Ziami grows only through its consultants, who are selling our products every day. Ziami lives from and with the people who work for Ziami and are the customers of Ziami. Therefore, the well-being of the customer and the well-being of the consultant are foremost to us. Ziami is better than most network marketing concepts, because the product and the price are already convincing.

As a Ziami consultant, you have an influence on the development of every product and also on the company itself. Ziami gladly accepts the suggestions of its consultants, so that a good concept can get even better.

Ziami works with a concept, in which you can achieve great results quickly, yet also allows you to have fun and enjoyment while doing it.

With Ziami you can use your individual abilities to do the best for yourself. Create an additional income or maybe even your main income, and reach your financial goals.

We will give you the knowledge and know-how from experience, so that you will have more success.

Founded only in 2003, Ziami is still a young company, which fascinates many of our workers. Ziami is a company that has grown rapidly, and will continue to grow with its employees into the future. With direct marketing, Ziami has entered upon an enlightened path to optimal customer contact. The comfortable home-service offers attractive terms and low prices, in addition to individual advising in a familiar, homey environment.
