Press release from: [FabulaTech](#)

FabulaTech announced the 30% discount for all their products till September 7

London, UK – FabulaTech, a software development company which by the passion for technology has built its solid grounds on the software market since 2000 and which specializes in device driver development, application development and systems internals programming for Microsoft Windows, Linux and Embedded operating systems announced today the “Total Steal at FabulaTech” campaign. From now on there is a 30% discount on all company’s products till September, 7.

FabulaTech products encounter: USB over Network, USB for Remote Desktop, USB Monitor PRO, Sound over RDP, Virtual Serial Port Kit, Network Serial Port Kit, Serial Port Redirector, Serial Port Splitter, Serial Port Mapper, Serial Port Control, Virtual Serial Port Control, Virtual Modem, etc.

Commenting on the issue, Andrew Scott, FabulaTech general manager, said: “We have decided to start this time-limited campaign to deliver the freedom of expression, gauge our customers’ savings and evaluate the mutual potential”.

“FabulaTech embraces the ideal of providing personalized service with the customer's needs in mind, all the time”, comments Sonja Fischer, one of the company’s customers.

“Our success is directly attributable to working closely with our customers to assure their requirements are clearly identified and defined”, added Monica Radzinsky, FabulaTech deputy manager. “A complete work plan is defined and agreed upon prior to beginning development and milestones are closely monitored to be assured that projects meet not only the technical objectives, but cost and schedule goals are realized”.

Recently the company have released the following program updates: Virtual Serial Port Kit 5.2.2, the program which creates virtual serial ports and connects each pair of them via a virtual null-modem cable; USB for Remote Desktop 2.6.1, granting access to local USB devices in remote Terminal Server session and Sound over RDP 2.1 which shares sound input devices remotely.

FabulaTech is focused on providing best and highest possible program quality and ensuring a high level of satisfaction among the customers. The company delivers results and ramp up experiences with all the products.
