Press release from: [ROTOCONTROL GmbH](#)

Brussels, Belgium (September 25, 2009)- Marco Aengenvoort, Managing Director, today announced that Limo Labels has successfully run production on their recently purchased ROTOCONTROL RSD 430 dual die cutting slitter rewinder machine with RTR fully automatic turret, in the ROTOCONTROL booth 7M105 at Label Expo.

The ROTOCONTROL RSD series of die cutting/slitter rewinding machines are designed for fast, accurate die cutting, slitting and rewinding of all types of labels. The ROTOCONTROL fully automatic turret is offered as an accessory to the RSD and RSI line of slitter/rewinder and die cutting machines. Features include glueless core attach with shaft loading and unloading options ensuring the highest production speeds and efficiency.

Jens H. Mortensen, Chairman of the Board of Limo Labels commented, “Although we urgently needed our RSD die cutting machine, we also wanted to help ROTOCONTROL exhibit the technology. Running our rush job at the Label Expo was a good solution.”

“Jens is an ideal customer. He even sent his own operators to run their material on the machine for us. We are honoured to have their machine running in our booth, providing a live operating demo of the features and benefits of this machine” states Marco Aengenvoort.

The RSD 430 die cutting slitter rewinder machine with fully automatic turret will continue to run Limo Label production until the last day of Label Expo, Saturday, September 26th Stand 7M105.

Limo Labels has more than 20 printing machines at their 4 production sites in Denmark and France dedicated to the production of labels, tickets and tags on rolls, folded and sheets in up to 10 colours plus hot stamp. Limo Labels is an innovative company leading in areas such as functional labeling, hang tags, security labeling, multipages labels, textiles tags, RFID labels and tags.

About Limo Labels AS

Limo Labels AS produces and supplies labels and sells transfer ribbons and other printing equipment. We are specialists in developing functional labels in close consultation with our customers and use traditional and special raw materials imported from many different countries. Limo Labels has more than 20 machines dedicated to the production of labels on rolls and folded for any purpose. We have extensive experience and are extremely flexible, enabling us to advise on the correct choice of materials according to the end-use, such as printing method, application and durability.
