

idt-smarttags.com launched as new purchasing platform for RFID Keyfobs & Wristbands for LF and HF technologies

Date: 09-29-2009 09:22 PM CET

Category: [IT, New Media & Software](#)

Press release from: [iDTRONIC Electronic Identification GmbH](#)

The new website [idt-smarttags.com](#) is dedicated to all RFID based Keyfobs & Wristbands and is a new and convenient way to purchase Keyfobs or Wristbands online.

The range of offered keyfobs & wristbands includes contactless IC technologies for LF 125 kHz and HF 13.56 MHz from NXP, EM, Atmel and LEGIC.

All [idt-smarttags.com](#) products are highly competitive priced and offered with standard personalization as logo and serial number printing. [idt-smarttags.com](#) shows prices for 500 up to 10.000 pieces and gives to the customers the possibility to personalize the keyfobs & wristbands with a logo, UID or serial number printing.

The intuitive and easy to use quotation system allows every interested customer in getting a fast quotation. For international shipping the user can get an easy overview about shipping options and cost.

[idt-smarttags.com](#) is the perfect purchasing platform for all interested buyers of RFID keyfobs & wristbands.

For more information about the new purchasing platform for RFID keyfobs & wristbands sales@idt-smarttags.com or go directly to www.idt-smarttags.com.
